

Saving Springfield's Greenspaces

-petition-

Rotorua District Council wants to take the
Springfield Community greenspace &
Springfield Golf Course for:-

- **Hundreds of new car parks**
- **155 Mixed Housing**
- **Additional sports fields**

= \$45 million spend

this means:-

Destroyed shared green space
Destroyed Golf Course
Destroyed native bird & tree habitat

Have your say & **sign the petition** to
register your objection to this proposal.

‘Westbrook Sport and Recreation Precinct’

The Rotorua Lakes Council has spent \$160,000 plus of Rate Payers’ money to present a ‘master plan’ to convert the current

Springfield Golf Course to a **regional sports hub**.

This plan includes a re-development of the current Westbrook Sportsfields.

This will mean :-

- 10 extra sports fields on the current golf course
- 155 mixed density housing on the current golf course
- Hundreds of new carparks
- Up to 15 new sports-related buildings

=at least \$45 million of potential ratepayer/tax payer money

The impact on the Springfield Community will be:-

- Access road congestion to car parks & increased traffic demands.
- The existing springs & wetlands will be covered & drained.
- Hundred plus mature trees will be felled.
- Loss of ongoing Council income the Springfield Golf Club contributes in lease payments, rates & water rates.
- Increase in ongoing Council expenses to maintain the area currently maintained by Springfield Golf Club.
- Loss of native birdlife, wildlife & habitat.

Please SIGN THE PETITION to renew the Springfield Golf Club’s long term lease.
